Experience

Software Quality Operations Associate
Waymo | Sept'21 - Present

- Analyze and perform quality assurance of proprietary self-driving software, review and test simulated self-driving data, report bugs on safety-related issues and regulation violations.

Back-End Intern
Blingy | Aug'21 - Sept'21

- Explored the Firebase database and uploaded data files to the backend.

Software Engineer Intern
Computer Science Division, UofSC | Jan'20 - Apr'20

- Designed a student ID card reader application using C#.NET within a month.
- Met weekly project deadlines and also used HTML and CSS for mini webpage projects.

Undergraduate Student Assistant
Math Lab, UofSC | Aug'19 - May'21

- Tutored college students for 2 years in college-level courses such as Calculus, Statistics.

Academic Projects

Shell Program

- Replicated basic commands using C programming language in the Linux Shell with the help of header files.

Capstone Project at NovaTech LLC

- Gathered project requirements and deliverables for developing building blocks in 4 months by using C#.NET.
- Led the team and distributed tasks, and coordinated with the supervisor for weekly status updates.

Command Based Game

- Implemented a game which works on specific commands using Java.
- The game has two phases, a treasure hunt and a maze. User wins the game if they land out of the maze.

Education

University of South Carolina (UofSC)
Bachelor of Science in Computer Science
President's List: Spring 2020 and Fall 2020
Fall 2017 - May 2021
GPA: 3.88/4.00

Hackathon

KidFit, Black Wings Hackathon
Based on social good theme, submitted a front-end app (a simulation game for children teaching them healthy habits) in 3 days using Javascript with React-native and Expo framework.

Skills

Programming Languages
Java | C++ | C# | C | Python | Visual Basic

Web Development
HTML | CSS | JavaScript | PHP

Tools
